DETAILED ACTION

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Claims 1-10,24,42,43,46-51,53 and 54 are allowable over the prior art of record because the prior art of record fails to teach or fairly suggest a graphical user interface for filtering application configuration information on an application basis and displaying this information for the user to select the settings to revert, these limitations are indicated in claims 1, 24, 42 and 51, "displaying a graphical user interface, the graphical user interface including filtering functionality for filtering application configuration information based on a per application basis including displaying the name of one or more applications such that configuration information for a specific application can be selected; in response to a user selection of an application from the graphical user interface, retrieving the stored package when desirable to revert the configuration settings of the software application back to a state that existed prior to the changes in the configuration settings".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
